

Template aimed at making an inventory of rules & regulations governing electric bicycles with a view to include these rules & regulations in the training plan

Introductory remarks:

This template lists all rules and laws applicable to electric bicycles and to the activity of selling electric bicycles in the European Union. It concerns:

1. Specific technical and administrative rules and regulations
2. Liability and guarantees
3. Access to trade
4. Trade practices
5. Employment conditions

If the basis of a rule is European legislation, member states sometimes have some margin to apply certain provisions. This template has all details for Belgium among other things to show how Belgium has used that margin, for instance in the case of consumer guarantees. The transposition details are aimed at helping you to find these details for your country.

There are also some rules without a European basis, in Belgium for instance, that is the technical requirements for cycles and their trailers included in the traffic code.

In the last column, we have indicated which particular knowledge about each law/rule needs to be included in the training.

All European legal texts are available in any of the European languages. In any link to a text on eur-lex, replace “EN” (before “PDF”) by the abbreviation of your language.

1. Specific technical and administrative rules and regulations

Legal Reference and Title	Content Summary	Transposition details	Knowledge to be included in the training
Directive 2002/24/EC relating to the type-approval of two or three-wheel motor vehicles and repealing Council Directive 92/61/EEC ^{1 2}	Article 1(h): This Directive does not apply to “cycles with pedal assistance which are equipped with an auxiliary electric motor having a maximum continuous rated power of 0.25 kW, of which the output is progressively reduced and finally cut off as the vehicle reaches a speed of 25 km/h, or sooner, if the cyclist stops pedalling.”	Transposition deadline for member states: 9 May 2003 Danish transposition: 1. 2. Liability and Guarantees

<p>Directive 99/44/EC of 25 May 1999 on certain aspects of the sale of consumer goods and associated guarantees (currently under review)¹¹</p>	<p>This Directive regulates legal protection of the purchaser in respect of defects in the goods acquired. This legal protection is rendered compulsory by the law and is not dependent upon the contract. The Directive hence establishes the principle of the conformity of the product with the contract. The minimum term for this guarantee is 2 years but some member states have imposed a longer term. For second hand good, the minimum term is 1 year</p>	<p>Transposition deadline for member states: 1 January 2002</p> <p><u>Danish transposition:</u></p> <ol style="list-style-type: none"> 1. 	<p>output is progressively reduced and finally cut off as the vehicle reaches a speed of 25 km/h, or sooner, if the cyclist stops pedalling.” It does not apply to electric bicycles in the type-approval.</p> <p>The Directive provides a generic definition of a safe product. In addition to the basic requirement to place only safe products on the market, producers must inform consumers of the risks associated with the products they supply. They must take appropriate measures to prevent such risks and be able to trace dangerous products.</p> <p>Since a reference has been published to EN 14764, any bicycle in conformity with this standard is presumed to be in conformity with General Product Safety Directive. Such a reference to EN 15194 has not been published yet. Following this law the manufacturer has to ensure the necessary warnings for possible risks linked to the product in the official language of the member state.</p>	<ol style="list-style-type: none"> 1.
